GitHub   LinkedIn   X/Twitter   npm   PyPI   HuggingFace   ORCID

SUMMARY

Computer Science engineering student and Co-Founder specializing in AI frameworks, full-stack development, and cybersecurity. Active open-source contributor with 500+ contributions, 77 public repos, 98 followers, and 346+ stars on GitHub. Contributed merged PRs to projects with 46k+ combined stars including Chrome DevTools MCP, SuperClaude Framework, and Google SecOps. Published 9+ npm packages, 4+ PyPI packages, and apps on Google Play Store. Develops entirely from Android using Termux.

EXPERIENCE

Co-Founder — NextGenXplorrers (NextGenX)   2024 – Present
- Leading a tech exploration community with presence on YouTube, Instagram, and Google Play Store
- Building and publishing mobile apps (Flutter, React Native) — Reshme Info, PocketAi, Nxg-Assistant, Kannada Keyboard

Core Contributor — SuperClaude Organization   2024 – Present
- 20+ merged PRs to SuperClaude Framework (20.8k stars) — PyPI publishing, installer fixes, CLI enhancements, MCP installer
- Maintaining scoped npm packages: @superclaude-org/superclaude, @superclaude-org/supergemini

Developer — AOSSIE Devr.AI   2024 – Present
- Building an AI-powered Developer Relations assistant (73+ stars, 141 forks) with LLMs, RAG pipelines, and community automation
- Merged PRs: frontend routing refactor, dependency conflict resolution

Contributor — Google SecOps Wrapper   2024 – Present
Contributing to Google's official Python SDK for Security Operations (Chronicle) API (64+ stars). Merged PR #71: pyproject.toml layout & README improvements.

Contributor — Engineering in Kannada   2024 – Present
Next.js platform for engineering education in Kannada. Merged PRs: navigation fix, Google Translate integration, Gemini chatbot, multilingual support.

CONTRIBUTIONS TO MAJOR PROJECTS

- **ChromeDevTools/chrome-devtools-mcp** (25.8k stars) — 2 merged PRs: #321 improved error messages, #252 refactored Mutex onRelease
- **SuperClaude-Org/SuperClaude_Framework** (20.8k stars) — 20+ merged PRs: PyPI setup, installer robustness, CLI logging, legacy fallback, MCP fixes
- **anuraghazra/github-readme-stats** (71k+ stars) — PR #4511: fix to prevent TypeError crashes on network errors
- **google/secops-wrapper** (64 stars) — Merged PR #71: pyproject.toml layout and README improvements
- **AOSSIE-Org/Devr.AI** (73 stars) — Merged PRs: React Router refactor, poetry.lock regeneration, dependency fixes
- **SumeLabs/FastApps** — 5 merged PRs: GitHub workflows, version bumps, configuration fixes

KEY PROJECTS

- **OpenClaw Termux** (60 stars, 10 forks) — Flutter app + npm CLI to run OpenClaw AI Gateway on Android. One-tap Ubuntu/Node.js setup, embedded terminal, WebView dashboard, 7 device capabilities. No root required.
- **SuperGemini Framework** (231 stars) — Meta-programming framework for Gemini CLI with 18 slash commands, 13 AI agents with Persona Mode, and MCP integration.
- **SuperGravity** (20 stars) — Python framework for Google Antigravity IDE: 9 global workflows, 12 AI skills, 10 MCP servers. Published on PyPI.
- **KannadaGPT-0.6B** — Custom 0.6B-parameter LLM fine-tuned for Kannada using LoRA on Qwen3-0.6B base. Trained on 389k samples from Cognitive-Lab/Kannada-Instruct-dataset.

- **groq-rag** (npm) — Extended Groq SDK with RAG, web browsing, vector store, and ReAct-style AI agents. Live demo.
- **CortexFlow** (npm) — Universal MCP server for AI-to-AI task continuation. Dual transport, 14+ client configs, 56% token savings, 95.4K ops/sec.
- **Kannadafy** (9 stars, PyPI) — Python code obfuscator supporting 5 scripts: Kannada, Telugu, Tamil, Devanagari, Greek. Multi-file batch processing.
- **pyKannada** (PyPI) — Python interpreter using Kannada keywords (40+ mappings). Interactive REPL and script execution.

PUBLISHED PACKAGES

- **npm** (9+ packages): @superclaude-org/superclaude, @superclaude-org/supergemini, openclaw-termux, cortexflow, groq-rag, github-contributors-badge, luma-cli, and more
- **PyPI** (4+ packages): supergravity, kannadafy, pyKannada, superqwen

TECHNICAL SKILLS

Languages	Python, TypeScript, JavaScript, Dart, Java, Kotlin, C++, Bash, HTML/CSS
Frameworks	React, Next.js, Flask, FastAPI, Flutter, React Native, Express.js, Node.js, TailwindCSS
AI / ML	TensorFlow, HuggingFace, Groq, MCP (Model Context Protocol), LLM Fine-tuning (LoRA), RAG, Google Colab
Security	Kali Linux, Burp Suite, Wireshark, Nmap, Metasploit, OWASP, Pentesting, CTF
DevOps / Cloud	Docker, Firebase, Git, Linux, Vercel, Netlify, Google Cloud, GitHub Actions, Render

EDUCATION

Don Bosco Institute of Technology (DBIT), **Bengaluru** Bachelor of Engineering (BE) — Computer Science	Sep 2025 – Sep 2029
Universal PU College Pre-University (PUC) — Science (PCMB)	May 2023 – Mar 2025
Shree Vinayaka Rural High School High School	Jun 2020 – Apr 2023
Strawberry International School, Ramanagara (CBSE) Primary School	Apr 2017 – Mar 2020
Shree T Giriyappa Memorial Educational Trust Primary	May 2012 – Apr 2017

CERTIFICATIONS

- **Introduction to Model Context Protocol** — Anthropic Academy · Building MCP servers & clients in Python, mastering tools, resources, and prompts primitives
- **Unstop Certificate** — Unstop

ACHIEVEMENTS & RECOGNITION

- 500+ open-source contributions on GitHub
- Merged PRs to repos with 46k+ combined stars
- 77 public repos, 98 followers, 346+ stars
- 9+ npm packages, 4+ PyPI packages published
- GitHub Developer Program Member
- Published apps on Google Play Store
- GitHub Public Sponsor
- Starstruck (x2), Pull Shark (x2), Pair Extraordinaire (x2)
